Red Headed Woodpecker Nesting Box Design

Print Plans & Dimensions (below) Model Not Yet Available.

The Nestbox for Red-headed Woodpeckers, Golden-fronted Woodpeckers and Hawk Owls is constructed with Red Cedar. Wood stock is rough-cut on both sides so birds can grip interior and exterior surfaces.

It has a 6" by 6" floor, 14" inside ceiling, 2" diameter entrance hole located 11" above the floor. Ventilation openings are in the floor and under the roof.

Hinged roof provides easy access for monitoring and cleaning. Shutter hooks secure roof in closed position.

Assembled with corrosion resistant screws. Pilot holes in both primary and secondary work pieces makes for easy assembly with screwdriver in minutes.

Locate in a woodland edge or clearing. Mount at least ten feet high. Leave some wood chips on the floor. Birdhouses mounted out of reach should be installed by professionals.

Assembly:

Side and back.

Back Panel with screws.

4) Fasten Front. Panel

to Back Panel and Floor.

6) Fasten Roof and Hinges to Back Panel.

8) Mount Nestbox with Large Screws at appropriate Height (see specific species mounting height and habitat.)
